Non-Soil Fumigation Study Manual Available Now!

The study manual for the new Category M is available for purchase from the UCANR catalog. Make sure you are ready for your exam!

Use the Non-Soil Fumigation knowledge expectations (KEs) when preparing for the exam.

Individuals need to obtain the required fumigant use category prior to January 1, 2024 to continue conducting fumigant pest control activities uninterrupted in 2024.

Scan the QR code or click the link below to obtain your copy of the NSF study manual.

Non-Soil Fumigation (NSF) Study Manual Available Now!

The [study manual for the new Non-Soil Fumigation \(Category M\)](#) is available for purchase from University of California Agricultural and Natural Resources (UCANR) catalog. Make sure you are ready for your exam!

Use the [Non-Soil Fumigation knowledge expectations](#) (KEs) when preparing for the exam.

DPR has two new fumigation categories available for Qualified Applicator License (QAL) and Qualified Applicator Certificate (QAC) holders. If you perform pest control using a pesticide labeled as a fumigant, you must obtain the new Soil Fumigation (Category L) and/or Non-Soil Fumigation category(ies).

Individuals need to obtain the required fumigant use category(ies) prior to January 1, 2024 to continue conducting fumigant pest control activities uninterrupted in 2024.

Who We Are

The California Department of Pesticide Regulation protects human health and the environment by fostering safer and sustainable pest management practices and operating a robust regulatory system to monitor and manage the sale and use of pesticides across the state. DPR's work includes registering all pesticides sold or used in California, conducting scientific evaluation of pesticides to assess and mitigate potential harm to human health or the environment, investing in innovative research to encourage the development and adoption of integrated pest management tools and practices, monitoring for pesticides in the air and water, conducting outreach to ensure pesticide workers, farmworkers and local communities have access to safety information, and enforcing pesticide regulations in coordination with 55 County Agricultural Commissioners and their 400 field inspectors.
